DAZHI PAPER MACHINERY

PAPSTAR
pulp&paper machinery

MIKE LI
mike@papstar.com.cn

The Best record of paper machine made in China.

☆China Paper Machine Leader

China Government Project
"the 11th five-year" plan

JH paper PM6

Paper Kind: LWC

Basis Weight: 38-100 g/m²

Paper Width: 5600 mm

Design Speed: 1500 m/min

Operation Speed: 1350 m/min

DAZHIAN PASSION

For the technology of paper machines, we are doing what others don't want to try and do better than others who are doing in China.

New Paper Machine
JH PM6, 5600mm, **1500m/min**

Rebuilding Paper Machine
JH PM1 from 280m/min to **800m/min**

APMP Line
100000TPY

China Scientific and Technological Achievement Awards: 26+

CHINA ACADEMICIAN WORKSTATION

Patents:110+

Core Technology

Integra-Jet

HYDRAULIC HEADBOX

Dilution control 2000m/min
Vanes to INDIA, RUSSIA...

Integra- Top

HYBRID TOP FORMER

Max. paper width: 6000mm
Speed range: 200-1200m/min

Integra- Shoe

SHOE PRESS

Jianghe Paper Pm4 and PM6
Max. 5600mm, 1500m/min

SOFT CALENDER

Swimming Roll

Integra- Calender

We are proud to offer all INTEGRA series PAPER MACHINES for paper/board/tissue making. key Equipment

COMPLETE Paper Making Line
Off-line Coating Line
Slitter Rewinder
Automation Solution DCS/DS

FILM SIZE PRESS/COATER

-MUDA mill in MALAYSIA,
-MAF BANGLADESH for a PM1000m/min

Integra- Sizer

REBUILDING PAPER MACHINE

Complete paper mill rebuilding

- from process optimization to machines and control systems updating

Key equipment updating

- Headbox retrofitting with increasing more function modules, i.e. adding dilution control.
- Top former, update the types of roll or blade to our patented hybrid type of roll-blade.
- Press section, many aspects to be considered in terms of customer's problem and target, i.e. dryness and thread efficiency. Ask us if you want to add a new shoe press.
- Size Press, updating pond type to a film metering sizer
- Soft Calender, functions recovering, control system optimization.
- Super Calender, mechanism and control system recovering and optimization.
- Rewinder, mechanism and control system recovering and optimization.

NEW PAPER/BOARD MACHINE, Dazhi supplies

Paper Width: max. 8000mm

Operating Speed: max. 2000m/min

Best record at present :

Width: 5600mm,

Operating speed: 1350m/min

Structure: Horizontal gap former with shoe press

OFF-LINE COATER

For release paper, the best record 350m/min

DAZHI PAPER MACHINERY

We Are Real Paper Maker And Paper Machines Maker

**We bring Modern Technology
and Proven Solutions for the paper industry in the world .**

**We are achieving shortest process and minimum energy/water
consumption for a most competitive input-output Ratio.**

Please Challenge US!

Thank You!
